

A DAY OF FUNERALS.

Burial of the Victims of the Washington Disaster.

NEARLY ALL DISPOSED OF.

Sad Processions and Funeral Services Occupy the Entire Day—The Injured Will Probably All Recover With Two Exceptions—Active Relief Measures Being Taken.

WASHINGTON, June 12.—The remains of the dead victims of the horrible wreck of Ford's theater, on Friday morning, have nearly all been disposed of. Washington was yesterday a city of funerals, and all day long mourners went about the streets. Every one knew what the sad processions meant, and the sympathy of all was extended, albeit unexpressed in many cases, to the sorrowing-stricken ones.

Inquiry confirmed the statement that none of the victims are men of property. Most of them lived on their salaries, which furnished a means of livelihood, but left little for a day like this. Most of them were married, and some had large families, who are now left, if not entirely dependent upon friends and relatives, at least lacking in funds for immediate use.

The body of George Q. Allen of Pennsylvania was taken to Philadelphia, where his relatives reside, for interment, after a funeral service conducted by Rev. Father Kervick.

After the last sad rites had been performed over the remains of Emanuel Gates Shull, also of Pennsylvania, the casket was taken to Gettysburg for interment.

The remains of J. Boyd Jones were sent to his home in Evansville, Wis., where a widow and three children await their arrival.

The body of Captain Michael T. Mulledy is now on its way to New Orleans; that of Samuel P. Barnes was taken to Bristol, Pa., and that of Jeremiah Daley to Romola, Pa.; that of H. S. Miller to Cumberland, O.

Nearly all of these men were members of various military or civic organizations, and their comrades in such cases attended their funerals, and escorted their remains to the railroad stations.

J. B. Gage was a Grand Army man, and Kit Carson post gave him a military funeral, and buried him among his comrades at Arlington.

George M. Arnold was one of the best known colored men in government employ here, and his funeral at the Metropolitan African Methodist Episcopal church attracted an enormous attendance, which included the colored militia companies.

Funeral services were held over the remains of Frederick B. Loftus at his home on Ninth street, in the presence of his wife and six children and many friends.

The Masonic fraternity, through B. B. French lodge, conducted services over Captain B. F. Miller. The Rev. Mr. Rogers of the Universalist church preached a short sermon, and at 2 o'clock the remains were started for Utica, N. Y., where the interment will be made. Kit Carson post, G. A. R., sent a delegation to the funeral.

What remained of Otto F. W. Maeder, was interred at Arlington after services by a German Lutheran minister.

The body of Dr. Burrows Nelson was interred at Mount Olivet cemetery, and that of Frank M. Williams of Middletown, Wis., was buried in Congressional cemetery, Rev. Samuel Greene preaching the funeral sermon.

The Independent Order of Mechanics laid at rest in Greenwood the remains of Joseph Richard Fagan, and Garfield Post, G. A. R., interred at Arlington the body of their late comrade, J. E. Chapin.

John Bussius was buried from his late residence and interred in Arlington cemetery.

The funeral of William Schreiber will be held at College Park, Md., and his remains interred at Baltimore.

The remains of J. H. McFall will be taken to Lynchburg, Va., for burial.

Much of the talk upon the disaster is now of relief measures and the circulators of subscription papers in the departments and the Washington newspapers in their efforts to gather funds for the relief of the victims and their families are meeting with success to a degree that does credit to the benevolence of the citizens. The government clerks as a class are not well-to-do, and the expenses of living here absorb most of their salaries, but few indeed were too poor to contribute a sum that appeared to be generous in view of their means, for the relief of widows and orphans.

One notable fact is the growth of the feeling of resentment on the part of the public against the persons responsible for the wreck. In advance of the verdict of the coroner's jury and of the findings of the court of inquiry ordered by the war department, there is more general agreement upon this point, and the public are rather indiscriminately condemning everybody who had anything to do with the control of the wrecked building, from congress down to the very laborers who were digging in the cellar when the crash came.

The injured now in the hospitals are, with the exception of two, in a fair way to recover. The serious cases are those of J. P. McCormack of Wisconsin and Frank Metcalfe of Massachusetts. The former received a depressed fracture of the ribs, and is in a critical condition. Death is likely to occur at any time. Mr. Metcalfe sustained a dislocated hip and is doing as well as could be expected under the circumstances until pneumonia developed and the physicians are

not now able to predict the result in his case.

F. W. Test of Illinois is getting well and will soon be removed to his home.

A. S. Ames of Iowa is improving, but is still in a serious condition.

P. J. Pennington of Alabama will recover.

K. A. Smith of Connecticut shows an improvement.

H. B. Esterling of Kansas, W. S. Gustin of Ohio, E. Leger of Mississippi, Captain J. B. Dowd of Indiana and J. H. Thomas of Missouri will recover.

F. F. Calvert of Maryland has been removed to his home, and is steadily improving.

John Baker, one of the injured, is rapidly recovering.

A. P. Whitney is at home suffering greatly, and is in a precarious condition.

Deputy Coroner Shaffer is making preparations for the inquest. He has subpoenaed 40 witnesses and it is his intention to secure all the eyewitnesses to the affair that he can. Those who will be examined are W. T. Richardson of the record and pension division, Building Inspector Entwistle, Benjamin Reiss, record and pension division; Superintendent Court of the records and pension division, J. E. Simms, builder; J. T. Lynch, bricklayer, and Robert Clarkson and D. L. Cissell, contractors.

Patrick Doyle, a contractor for 40 years in Washington, says that five months ago he was sent for by the officials of the record and pension division, war department. "They wanted me," said Mr. Doyle, "to take the job of undermining the old structure, for the purpose of putting in an electric plant. I told them that I would not touch the job. I had several reasons for this refusal. The first was that it was a risky and dangerous undertaking; secondly, they did not have any plans or specifications for the work; thirdly, there was no civil engineer or expert to supervise the operations, and the contractor was supposed to go ahead at random, or in a haphazard manner; fourthly, they were niggardly about the amount they wanted to pay for the work, and evidently desired to have it done in a 'cheap John' fashion. For these very good reasons I kept my hands off the work, and in the light of recent events I am glad that I did, or today perhaps I would feel like an assassin."

"I examined the pit yesterday in which the mangled victims were precipitated in the crash on Friday. I found that no support had been placed underneath the center arch where excavation was made from the street. The arch should have been blocked up from the basement, and then from floor to floor to the ceiling in the front part of building. The accident was caused by undermining the pillars. The job was a risky one, and there are evidences of careless undermining."

"If the coroner's jury finds a verdict of involving criminality it will be my duty to report the matter to the grand jury for investigation and action," said District Attorney Birney. "Indictments will probably follow unless it is found that the blame is so much distributed as to make such a course impossible. This might be the case if it was the belief of the jury that congress, for instance, was the blameworthy party."

"I have taken no action in this unfortunate matter as yet," continued Mr. Birney, "and cannot do so until after the inquest. I shall, however, send one of my assistants to attend the coroner's inquiry and make such suggestions as appear necessary as to the course of the investigation and the witnesses to be examined."

"You may be sure that we shall follow the case closely. I see that the war department is to have an investigation of its own. The result of this, taken with the findings of the coroner's inquest, will be of value to me in case of criminality being established against anyone. Between the two investigations it may be possible to fix the blame, if there is any."

PETRIFIED CHILD.

It Is in Perfect Condition After Being Buried Thirty-Eight Years.

PITTSBURG, June 12.—While removing bodies from the Troy Hill graveyard, Lexton Hartman, an old gravedigger, made a most remarkable find. In a deserted part of the cemetery was a small iron coffin. When opened it contained the remains of a child in a perfect state of preservation.

The child was buried more than 38 years ago, as is proven by an inscription on the iron coffin lid. Every feature of its face is visible, and even the blue eyes and pretty curly hair is the same as it was when the child was buried. There is no sign of decay, and petrification had set in. Relic hunters in Pittsburgh are offering big money for the possession of the child's body, but the church authorities will not allow it to be removed from the cemetery under any consideration.

Behring Sea Arbitration.

NEW YORK, June 12.—Frederick R. Coudert, one of the counsel for the United States in the Behring sea arbitration, has arrived from Paris. He said he thought Mr. Phelps in his closing argument would occupy probably two weeks. "Mr. Carter opened our case in a very clear and thorough argument," said Mr. Coudert. "The contentions of the two countries could not have been presented in any clearer manner than they have been by the counsel on either side."

Trouble Along the Canal.

NEW YORK, June 11.—A special to The Times from the City of Mexico says: Private advices from Nicaragua report that there is grave danger of a collision between the United States marines and the populace. The troops, it is stated, have landed and thrown up fortifications at Santa Fe in order to protect the canal company's property. The government of Nicaragua will endeavor to prevent an outbreak, but the situation is serious.

AT THE WORLD'S FAIR.

Another Open Sunday at the Great Show.

THE ATTENDANCE WAS GOOD.

Some of the Exhibits Were Closed While Others That Have Been Delayed Were Put in Place by the Workmen—Sacred Concerts Given at the Fair.

CHICAGO, June 12.—The uncertainty regarding the Sunday opening of the fair kept yesterday's early attendance down to a low mark. Chief Justice Fuller's action in granting the super-seedeas was not made known far enough away from Chicago in time to bring in a crowd of countrymen, and as a result yesterday's sightseers were for the most part Chicagoans. The morning was damp and cool, but about 1 o'clock the sun came out warm, dispersing the mist and rendering the afternoon bright and pleasant. The crowds began to come about 2 o'clock, and from that hour until dark every mode of transportation was tested to its fullest capacity. The attendance for the day was good, considerably exceeding that of last Sunday.

SCENE IN THE INDIA BUILDING.

Considerable work was done in manufacturers' building behind the drawn curtains of some of the exhibits. The doors to the Japanese pavilion in the north of the building were barred and two guards stood on watch outside. Everything in the English section was shut up, while her neighbor, France, across the wide aisle, had thrown her big gates open as usual. Everything in the German section was in its everyday appearance, but half of Austria's display was concealed by long white curtains. Behind all the curtained departments, however, men were busily engaged in dressing windows and arranging displays to render them, if possible, more attractive.

A large force of men had possession of the Spanish section in the big hall, and they were working hard under the supervision of the assistant commissioner. It is the intention of the Spaniards to have their display in readiness in two or three days, and then give a reception to the infants. The only buildings on the ground that were crowded were the convent of La Rabida and the Krupp gun exhibits. These structures are small, but they are jammed all day by never-ending crowds of people, who walked almost to the extreme southern portion of the grounds to see the treasures they contained.

The free band concerts began at 3 o'clock. The program of sacred and popular selections were liberally applauded. Religious services were held down town in the morning by Mr. Moody at Tattersalls, and at Forepaugh's circus in the afternoon, many of the attendants visiting the fair during the afternoon and evening.

Director General Davis has issued an order that hereafter no exhibits or instructive material will be allowed to enter the grounds under any circumstances if intended for display. The director general says all permanent exhibits are now in place in all buildings with one or two exceptions.

LASSOED HIS PARTNER.

One Cowboy Drags Another to Death After a Quarrel.

WINNEMUCA, Nev., June 12.—Trainmen from Carlin give details of a tragedy which occurred near there Saturday evening. West Heckerson and George Rice, cowboys, who have been partners, spent the day drinking and carousing, and then left for the ranch where they were employed. They began quarreling on the way, and Rice, who was armed with a pistol, became violent, and Heckerson, fearing he would use it, took it away from him and threw it into the river.

This so angered Rice that he lassoed Heckerson, jerked him from his horse, and dragged him 50 yards at a full run. He then left his victim lying in the road and fled. The injured man was picked up shortly afterwards and taken to Carlin. He lived only long enough to tell the story. Carlin is greatly excited over the affair, and parties are leaving town to search for the murderer.

NEWPORT, R. I., June 12.—The sloop Navahoe sailed out of the harbor bound for England, there to try her speed in the English channel. The Navahoe will return here in time to participate in the fall cruise of the New York Yacht club.

Drowned Her Children and Herself.

ZANESVILLE, O., June 12.—Domestic trouble causing temporary insanity induced Mrs. C. J. Weaver, residing near Fultonham, to drown her children, one aged 6 years and the other 8 months, and herself, in Buckeye creek.

BRIGGS BELIEVER.

A Baltimore Minister's Opinion of the Acts of the General Assembly.

BALTIMORE, June 10.—Rev. D. B. Gregg, pastor of the Twelfth Presbyterian church, in a prelude to his morning sermon Sunday, said of the action of the Presbyterian general assembly in suspending Dr. Briggs for alleged heresy:

"To my mind the conviction of Dr. Briggs is a conviction of hundreds of the ablest and best ministers of the Presbyterian church at large. It brands the leading ministers of New York, Albany, Cleveland, Cincinnati, Washington and Chicago as heretics and unworthy of a place in the church to which they have dedicated their lives. Three years hence or less, the general assembly of the Presbyterian church will take back into her fold the man whom she has 10 days ago branded as a heretic."

Another Believer in Briggs.

WILMINGTON, Del., June 12.—Rev. A. N. Keigwin of West Presbyterian church, discussed the Briggs question last night. He said: "In my estimation, I have never witnessed a greater travesty of justice. A more absurd verdict was never rendered and the man who believes it right or fair or just, though he undoubtedly may be a good man, is bound at some day in the future to acknowledge that he was struck with a panic created by agitators who were jealous of new school of theology or that he was a fool."

RACING IN PARIS.

Baron A. De Schickler's Bay Colt Ragotsky Wins the Grand Prix De Paris.

PARIS, June 12.—The Grand Prix de Paris was run yesterday. Baron A. De Schickler's bay colt Ragotsky came in first, Mr. Rose's bay colt Ravensbury second, A. Abeille's brown colt Callistrat third. Ragotsky is by Parpex out of Czarada, and two weeks ago won the French derby at Chantilly. There were 11 starters, the course being one mile and seven furlongs, and the time of the winner was 3:38. The betting on the winner was 5 to 1.

The conditions of the race are: The Grand Prix de Paris—200,000 francs, 150,000 francs given by the city of Paris and 50,000 by the five great railway companies, for entire colts and fillies, foaled in 1890, of every description and country, added to a sweepstakes of 1,000 francs each; the second to receive 10,000 francs; the third 5,000 francs out of the stake.

The day was fine and all social and political lions were at the track. Hundreds of members of the English and American colonies were present. The usual display of magnificent costumes and elegant equipages was made. President Carnot and his sons arrived at the track early and were cheered with enthusiasm wherever they went.

CONVICTS REVOLT.

Thirty-Nine of Them Shot Down While Two Guards Are Wounded.

CAIRO, June 12.—Fifty convicts while returning from the quarries to Tourah prison near this city, overpowered the mounted guards and tried to escape. They constituted the last squad of a gang of 600 and the guards ahead did not know of the mutiny until the men had captured the rifles of the rear guards. As the 50 convicts fled, 11 of the advance guards started in pursuit.

The 25 guards left with the other 550 convicts kept them quiet by firing repeatedly over their heads. Half a mile from the spot where the mutiny broke out the 11 guards overtook the fugitives and ordered them to surrender. The convicts who had arms answered with a volley which wounded two men and killed three horses. The return volley of the guards killed 39 convicts. The other 11 convicts escaped. The convicts are believed to have been encouraged to revolt by the recent action of the native courts in punishing guards who shot at runaway prisoners who had been committed to their charge.

AMERICANS IN ENGLISH PRISON.

Extreme Suffering and Inhuman Treatment Alleged.

LONDON, June 12.—James Gilbert, the dynamiter recently released from Portland prison because he was thought to be near death, has sailed on the American line Chester from Southampton. Three physicians certified that the sea voyage would probably prolong his life.

In an interview before starting, Gilbert said that he intended during his sojourn in the United States to direct the Washington government's attention to the pitiable cases of Americans imprisoned at Portland. Gallagher, he said, had become hopelessly insane and Daly was going slowly. Other political prisoners were threatened with insanity. He himself had passed six months in the prison hospital during the year immediately preceding his release.

NATIONAL GUARD PROTECTION.

One Thousand Men Will Go to Work on the Drainage Canal.

LEMONT, Ill., June 12.—One thousand men will begin work on the drainage canal under the protection of the national guard. This decision was reached at a conference between officers of the militia, city officers and representatives of the contractors and strikers. The contractors claimed that their men were anxious to work if protected from violence on the part of the striking quarrymen.

The only exciting incident of the day was an assault by strikers upon negro workmen. The negroes took flight and were pursued by a mob of strikers for nearly a mile. Stones and clubs were hurled at the flying blacks, but they escaped without serious injury and finally found refuge in a military camp.

STEAMER MISSING.

It Has Probably Foundered in Lake Erie.

TWO HUNDRED SOULS ON BOARD.

They Were Excursionists From Buffalo to Chicago to Attend the World's Fair. Overdue at Detroit—A Vessel Near Chicago Sends Up Signals of Distress.

CHICAGO, June 12.—It is rumored that the steamer Nyack, an excursion steamer from Buffalo to Chicago, via Cleveland and Detroit, has foundered in Lake Erie. She had 200 world's fair passengers on board and was due in Detroit Saturday evening.

The rumor can not be definitely traced. The vessel has not reached Detroit, and no tidings of her can be had from Cleveland.

LAKE STEAMER IN DISTRESS.

Tugs Gone to Her Assistance, but Have Not Yet Returned.

CHICAGO, June 12.—The steamer Muskegon of the Goodrich line, while four miles off Evanston, sent up signals of distress. The Evanston lifesaving crew and tugs from Chicago at once responded at vent to the rescue.

The nature of the accident to the Muskegon is not known. People on shore say the boat appeared to be on fire, but if this was the case the flames were quickly extinguished.

PENSION CLAIMANTS.

Rates Under the Act of June 27, 1890, Fixed by the Commissioner.

WASHINGTON, June 12.—Judge Lochren, the commissioner of pensions, with the approval of Secretary Hoke Smith, has issued the following important order as to adjudicating and fixing rates of pension under the act of June 27, 1890:

First—A claim for pension under the second section of the act of June 27, 1890, can only be allowed upon proof of mental or physical disability of a permanent character not the result of the claimant's own vicious habits, incapacitating him from the performance of manual labor in such a degree as to render him unable to earn a support.

Second—No specific injury or disability, can, as such, have a pensionable rating under that act, nor be considered otherwise than as it affects the capacity of the claimant to perform ordinary manual labor.

Third—Proof that the disability is not the result of the claimant's own vicious habits is requisite; and therefore the causes and circumstances of the origin of the disability should be shown by the evidence furnished in support of the claim for pension, so far as can be done, and by persons other than the claimant.

Fourth—To give the claimant a pensionable status under this act, the disability must be such as to incapacitate from the performance of manual labor in such a degree as to render him unable to earn a support; yet the act recognizes differences in the degree of such pensionable disability, giving \$12 per month in case of the greatest and \$8 per month in case of the lowest degree of such pensionable disability rendering the claimant unable to earn a support by manual labor. It also provides for intermediate ratings, proportioned to the intermediate degrees of such pensionable disability. The proper ratings under this act will, therefore, be made in accordance with such rules for rating as the medical referee shall prescribe, subject to the approval of the commissioner.

CONDITION OF NATIONAL BANKS.

Abstracts of Reports Made to the Comptroller of the Currency.

WASHINGTON, June 12.—The abstract of reports made to the comptroller of the currency, showing the condition of national banks in the United States at the close of business on the 4th day of May last has been made public by Comptroller Eckels.

As compared with a similar statement made March 6 last, a net decrease in gold holdings is shown of \$7,000,000, and of individual deposits of nearly \$2,000,000.

An increase of undivided profits of \$3,900,000 and of the surplus fund of nearly \$1,000,000 is shown. Loans and discounts have increased \$3,000,000; real estate and mortgages owned have decreased \$500,000, and legal tender holdings increased \$13,000,000.

The net gold holdings of the treasury at the close of business Saturday was \$96,600,000.

John Robinson's Holidays.

Without doubt John Robinson's grand and magnificent show, is the children's paradise, whether they be the heirs to fortune or to years of grinding labor. John Robinson bears much the same relationship to bright, pushing, curious, irrepressible childhood that Santa Claus does to the world at large. The children look upon him with mingled wonder and affection as the veritable sovereign of fairyland, and he reciprocates their confidence and regard in right royal fashion. He says that "a happy child is the most likely to make an honest man," and carries out this theory by fairly overwhelming his little friends with innocent fun, wonder and delightful instruction. To please them was the pet hobby of his old age, and the energy and ingenuity he displays in that direction is simply marvelous. He collects great companies of clowns, caravans, cavalades, and varieties of birds, wild beasts, horses and ponies for that special purpose. There is almost no unapproachable carnival of two and four-legged grotesques; fools in motley fur and feathers; a hairy dwarf elephant riding a bicycle; trick seals, zebras, dogs, ponies, pigs, bears, sheep, oxen, goats, roosters, pigeons, pelicans, monkeys, and other beasts and birds, besides all the amazing performances in mid-air in the circus rings and on the elevated Olympian stages; the real Roman hippodrome; the stupendous, gorgeous and thrilling scenes in the sumptuously grand and spectacular biblical drama of King Solomon, his Temple, and the Queen of Sheba, indisputably the grandest scenic production of the age, with its beautiful costumes, magnificent trapping and appropriate ballet—the combined entertainment constituting the most instructive and amusing exhibition for both old and young ever witnessed in the world. It is not for all children when Robinson comes. His big show will be here next Friday, June 16th. Consult the Louisville specialist at the Central Hotel Friday, June 23.

The Recent Meeting of the Press 'Society'—Most Enjoyable Trip.

One of the "Gang" Talks Briefly of What He Saw at the Great World's Fair.

The recent annual meeting of the Kentucky Press Association was one of the most enjoyable ever held.

It included nearly a week's sojourn in Chicago, where the time was spent seeing the sights of the great World's Fair.

Every American is more or less interested in the World's Fair, of course, but it is not the writer's intention to try to describe the great show in all its details, for that couldn't be done very well in this paper. It seems almost incredible that the work now completed could be finished in the short space of time it has been done. The people from all over this country and foreign countries will visit the fair, and we feel safe in predicting that not one will come away disappointed. There is such a variety of people and things that the most fastidious will find plenty to please and delight them.

From an educational standpoint it surpasses anything ever attempted, and every man, woman and child that can afford to go to Chicago should go and see the show.

Hotel rates are reasonable and accommodations ample for all. One can secure lodging at good hotels from \$1 up to any price he may wish to pay, and as for transportation it would be almost impossible for the crowds that may attend to tax it to its full capacity. Horse, cable, electric and elevated cars are at your service. A twenty-minutes ride from State street on the elevated road will land one on the grounds, or you can take the Illinois Central on Michigan avenue and make the trip to the grounds in ten minutes; or those preferring a ride on the water can make the trip on any of the large number of boats on the lake.

One fare (50 cents) admits you to the grounds, where you will find plenty to occupy your mind for a month if you desire to stay that long. There is a liberal arrangement of seats scattered around the grounds where visitors can rest, and large tanks of ice water in many convenient places on the walks to quench your thirst, free. Guides are stationed at points on the grounds who will give one any information desired pertaining to the fair, and the writer found them very clever and obliging.

Visitors will find everything reasonable, and no more extortion prevails there than you will find in any of the large cities. The exhibits in all the different departments are as fine as it is possible to make them, and artisans and tradesmen of all kinds will find lots to interest them in their respective trades.

The buildings are beautiful, the walks are perfect and all the surroundings are delightful. The immortal road enables one to get a good view of the "White City" at a cost of 5 cents for a fifteen-minutes ride.

Midway Plaisance is practically separate and apart from the great show, and while it is a little expensive to make a tour of this part of the world of wonders, yet every one should visit it, or at least a part of it. The first place you visit is the International Dress and Costume Exhibit. Here you will find beautiful women of all nations attired in native costumes, and it is hardly necessary to say that you will see some "beauties," as they are supposed to be the most lovely and symmetrical women of the countries they represent.

Libby Glass Works is a very interesting place to visit.

The Irish Village has its famous Irish linens and laces. There you can see wool carded, spun and woven, and a collection of Irish art, ancient and modern. All the goods here are very expensive, but it is not to be wondered at when you know it takes a day to knit half a yard of this famous lace. Everything is done by hand. Their exhibit of wood carving is also very fine, and here you are greeted with the melodious strains of the far-famed and world-renowned Irish bagpipes.

The Japanese Village is not completed, but their bazaar is in full blast, and you can buy their beautiful wares, lacquered trays, and teas at a very reasonable price. When the village is finished it will be one of the handsomest in Midway Plaisance, and will be enclosed with a bamboo fence.

Then come the Chinese. They have teas and other articles to sell, and have a theater in their village where an entertainment is given every hour of the day. While visiting here we had the pleasure of attending a Chinese opera, a very novel sight to the average American.

In passing through the streets of Cairo you see the men and women busily engaged making articles of different kinds

that they dispose of in their stores. Here, too, we had the pleasure of attending the most novel and at the same time ridiculous entertainments ever witnessed by an American.

The Egyptian Village is not completed, but we had the privilege of seeing the ancient tombs, viewing the mummies, gods and goddesses, and were entertained with dances by some of the beautiful Egyptian girls.

A panoramic view of the Buresse Alps, the burning crater of Kilauea, Hawaii, said to be the greatest volcano on earth, is here and is a correct and faithful representation of world's great mystery, an active volcano, and is well worth the price of admission.

The Bavarian village was reached after we had been traveling half the day and were tired, hungry and thirsty, so we decided to stop a while with Her Dressell and regail the inner man with genuine Bavarian beer, (made in Chicago), ham and switzer sandwiches. After partaking of this repast we proceeded to see the many nice things they had for sale here, principally jewelry.

The Arabs were visited and we saw there the descendants of Ishmael. Their stores were well filled with trinkets made of hard woods, shells and jewelry, and while here we had the pleasure of forming the acquaintance of Dr. Kaheel, of Damascus, Syria, who speaks the English language fairly well and is very much interested in the people of this country. The Esquimaux is here with his dogs and sleigh. But few of them speak the English language very well.

The Turk is here in all of his glory and knocks his pipe in the same complacent manner he would on his native heath. If you desire he will give you a ride around the grounds in one of his "comfortable" Sedans.

The big wheel is not finished but it is the biggest thing in the way of a wheel you will ever have a chance to see.

There are many things and places of interest to visit in Midway Plaisance, but time and space will not admit of a more detailed mention.

Things of beauty are some of the State buildings, viewed from the interior or exterior. Some of them are models of architectural beauty and unique in design. While the proud old Commonwealth of Kentucky does not come up to some other States, she has a handsome home and one that every Kentuckian can feel proud of. True, we would now have a much nicer building had our bumbling Legislature done its duty at the proper time, but all is well that ends well and every Kentuckian who visits the fair should call at the Kentucky Building. You will be treated courteously and pass a few pleasant moments looking at pictures and busts of some of our State's noblest sons. Among them the illustrious Clay, General John C. Breckinridge, Judge Humphrey Marshall, Governor Scott, (third Governor of Kentucky), Hon. Ben Harding, John G. Carlisle, Richard Collins, author of Collin's History of Kentucky, Henry Watterson, Governor John Young Brown and many others. On the ground near the northeast corner of the building is the statue of Daniel Boone. It is a delightful home for the Kentuckian and the Commissioners deserve great praise for the labor so well performed. The Kentucky exhibit is a splendid one and Dr. Clardy, the Commissioner, and his efficient assistant, Mr. P. Drain, are to be congratulated.

The Manufactures and Liberal Arts Building is a beautiful structure. The exhibits here are not complete but there is enough to occupy your time for one day.

Machinery Hall is a great building and here you will find most anything you want to see under this head. The Electrical Building is a particular point of interest on Tuesday, Thursday and Saturday nights, when there are special electrical displays. The Horticulture Building is filled with rare plants from this and other countries. Agricultural Building has a good display. Transportation Building is filled with vehicles and conveyances of all kinds, both land and water. The Art Palace, U. S. Government Building, Fisheries, Mines and Mining, Woman's Building, The Forestry, The Dairy, and, in fact all the buildings should be visited as there is much in all of these structures to interest one.

The view looking south over the Lagoon is a perfect picture and the views sent out in many shapes do not do this scene justice. "La Rabida" is another place of interest and is more closely associated with the career of Columbus than any other structure. The Directors of the World's Fair had this building erected at their own expense and it is almost an exact fac-simile of the original monastery, near the town of Palos, Spain. Among the exhibits here are: A curious book published in 1427, entitled "The Discovery of America by the Mangols in the Thirteenth Century;" fac-simile of a celestial globe in bronze; a picture of Isabella as a child; portrait of King Ferdinand; original of the will of Isabella; the Catholic Castle in which Queen Isabella died; Tomb of Isabella and Ferdinand; views of the harbor and city of Geoa; Front door of the house occu-

piated by Columbus at Funchal, Maderia Islands; the cross that was erected on the spot where Columbus asked the Prior of La Rabida for bread and water; Bricks and tiles from the original monastery of La Rabida, Palos, Spain; bust of Columbus and flag from the Convent of La Rabida; the caravel "Santa Maria" as reproduced by the Spanish Government; "Munity at Sea;" "The First Cry of Land;" The anchor of the "Santa Maria," which was wrecked in 1492, on the coast of Hayti; "The First Mass Said in America;" a pile of stone that represents all that remains of the first city in the New World; "Death of Columbus;" house in which Columbus died; fac-simile of the box in which the remains of Columbus were found; autograph letter of Columbus to the Catholic Kings; coins made from the first gold brought from America; "The birth place of Columbus;" "The Burial Place of Columbus;" the log book of Columbus; title page of the first book printed in America; "The signature of Columbus;" "The Wife of Columbus;" the ashes of Columbus, and many interesting relics, paintings, &c. The La Rabida is a most interesting place in which to spend several hours profitably and to your great delight.

The press boys are under many obligations to the L. and N. Railroad, to the Commercial Club of Louisville, and to the Courier-Journal for the hospitality extended them while in that city; and to the Pennsylvania line for the special train from Louisville to Chicago, and for the courteous manner in which they were treated while en route to the windy city; and also to the Monon Route. The trip was a very pleasant one and thoroughly enjoyed by all.

THE gold watches carried by Hopper & Co. are the best manufactured and guaranteed to be lower in price than elsewhere.

SUNDAY excursion trains to be run every Sunday will be established June 18th by the C. and O., leaving Maysville at 9:15 a. m. and returning leave Cincinnati at 6:45 p. m. Round trip fare, \$1.00.

A RECEIVER was appointed for the Cumberland Gap Park Company yesterday. The liabilities are \$300,000; assets including Four Seasons Hotel \$600,000. The hotel will run as heretofore under the management of Henry Clair.

WHY pay from 15 to 20 per cent. more for watches when you can buy a fine gold watch at P. J. Murphy's, the jeweler, and save that difference? No better goods made, and I guarantee to save you the difference stated above. Now is the time to buy. Successor to Hopper & Murphy.

BALLENGER'S stock of sterling silver goods is one of the most complete and finest displayed anywhere. It embraces knives, forks, spoons, fancy articles and novelties, and should be seen to be appreciated. When you start out to buy anything in that line or any article of jewelry, don't fail to call on him.

ON A MISSION OF MURDER.

"Babe" Hawkins Attempts to Avenge His Brother's Death.

SHELBYVILLE, Ind., June 12.—Late Saturday afternoon "Babe" Hawkins, the desperado, with a gang of 30 men, armed to the teeth, surprised the town by appearing on the streets for the purpose of avenging the death of his brother, Charles Hawkins, who was lynched a year ago for shooting the city marshal. He first met ex-Sheriff James McGill, and informed him of his mission, and then started on a hunt for ex-Sheriff McDougall, whom he said he would kill on sight. They met on a corner and a desperate struggle ensued. McGill rushed to the scene and was felled by Hawkins, who blew a whistle, which brought his 30 men to his rescue. A melee followed and in the rush McDougall's leg was broken and several knife wounds were inflicted on him. Citizens came out by hundreds and a general fight ensued. Ex-Sheriff McGill was stamped into unconsciousness and is in a critical condition. McDougall held on to Hawkins until he was disarmed and in the custody of officers. Babe Hawkins' wife also waded into the fight with a knife. The officers hurried Hawkins off to the city court. Over 500 men gathered at the scene and lynching was looked for. Justice Craycraft held an examination and bound Hawkins over until June 30 under a \$500 bond. This he secured and drove off, guarded by his gang.

Awarded a Lifesaving Medal.

WASHINGTON, June 12.—Secretary Carlisle has awarded a silver lifesaving medal to Captain Valentine Jones of the steamer Hudson, plying on the great lakes, for saving the lives of six men and one woman from the barge Sunshine, near Pelee, Lake Erie, in October, 1892. The act was one of great gallantry and Captain Jones in his performance ran the risk of losing his own ship, which, with its cargo, was worth about \$1,500,000.

Kept Their Decision Secret.

CHICAGO, June 12.—The council of the supreme lodge of the Knights of Pythias met in executive session at the Great Northern hotel for consideration of charges against Stanbury J. Willey of Wilmington, Del., supreme master of exchequer, of malfeasance in office, in connection with the \$70,000 of funds held by his brother-in-law, Robinson, the banker, who failed recently in Wilmington. The decision reached was not made public.

Bankers' Lives Threatened.

WATERLOO, Ia., June 12.—The depositors of the defunct First National bank of Cedar Falls, refused the proposition of J. H. March of Lamars to pay 80 cents on the dollar for the certificate of deposit. This puts an end to all negotiations for the purchase of the bank and a receiver will be appointed. Threats have been made against the lives of the Fields brothers, owners of the bank.

Michigan Bank Closed Up.

LAWTON, Mich., June 12.—The American bank of Dwiggin, Starbuck & Company has been placed in charge of C. S. Adams and T. F. Chamberlain as receivers. The institution will not be reopened. It is expected that the depositors will realize about 50 cents on the dollar.

KNOCKED OUT BY PRIZE FIGHTER.

It Was Not According Ring Rules and Without Gloves.

ATLANTIC CITY, June 12.—James Glenn, the trainer of "Joe" Butler, the colored pugilist who is to meet "Jim" Daly before the Coney Island Athletic club on the 22d inst., was badly beaten by his charge Saturday night. Butler is training in Atlantic City for the fight, and was cautioned by Glenn not to touch any intoxicating liquors.

He has refrained from doing so up to the present date, but Saturday night when separated from his trainer proceeded to get "full." Glenn, on meeting Butler, remonstrated with him but was quickly silenced with a blow on the head from a heavy cane carried by Butler, which knocked him down and left a big gash on his forehead.

Glenn says he will have nothing to do with Butler any more, and forecasts that he will be defeated when he meets Daly.

FAIR FORGER'S FATE.

Annie M. Doolittle Will Get a Ten Years' Sentence.

ST. CLOUD, Minn., June 12.—Annie M. Doolittle, in general known as Annie Murphy, the most noted female forger in America, who has forged drafts on banks in Maine, Michigan, Minnesota, Ohio, New York, Alabama and Washington in amounts ranging from a few hundred dollars to \$5,000, has just been convicted of forging two drafts on New York, on which she secured the cash in St. Cloud.

The smallest sentence which can be given the fair forger, who is only 25 years of age and very pretty, is 10 years in the state's prison. Her husband, Arthur M. Doolittle, has just been sentenced to serve seven years for forgery at Nashville, Tenn.

A Four-Million-Foot Well Drilled.

PORTLAND, Ind., June 12.—Two big finds were made in the Indiana oil and gas fields. A gas well with a daily output of 4,000,000 cubic feet was drilled in near Red Key, making the fifth big gasser there. In Jackson township an oil well was shot on David Wright's farm. It is doing 1,000 barrels a day.

Rumors About Carter Harrison's Paper.

CHICAGO, June 12.—There is a rumor in St. Louis newspaper circles that Colonel Charles H. Jones, recently of The Republic, is endeavoring to negotiate a deal with Mayor Carter H. Harrison of Chicago by which he proposes to buy the Chicago Times. Mayor Harrison denies the story.

Exports of Money.

NEW YORK, June 12.—The exports of specie from the port of New York for the week were \$1,692,405, of which \$1,005,500 were gold and \$686,905 silver. Of this amount \$1,001,500 gold and \$680,400 silver went to Europe and \$4,000 gold and \$6,505 silver went to South America.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

CASTORIA

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

CARLOS MARTIN, D. D., New York City.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

CASTORIA cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Kills Worms, gives sleep, and promotes digestion, Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."

EDWIN F. PARDEE, M. D., 123th Street and 7th Ave., New York City.
